

## Memorandum

To: All Plan Holders  
From: Policy and Monitoring Manager  
Subject: **Updating District Plan Maps in Relation to Designation DW125: Airport Approach Path**  
Date: 11 February 2014  
Ref: TRIM 14/10812

DW125 is shown on the District Plan as a thick line, however the normal hatching for designations does not appear, for the reason that it covers vast areas and actually deals with the safe guarding of the flight path of aircraft rather than land use itself.

This is a three dimensional designation with a 1:50 Approach Slope and height restrictions.

In order to bring the symbology in line with all the other designations the hatching was added to the maps.

Additional references to DW125 have also been added to the map due to its size and coverage of various maps.

Please update your maps (12E, 15E and 46E) of the Whangarei District Plan accordingly.

Council's website is updated and can be downloaded from [www.wdc.govt.nz/DistrictPlan](http://www.wdc.govt.nz/DistrictPlan)

Paul Waanders  
**Policy and Monitoring Manager**
