

I ~~support~~/oppose/seek amendment to the specific provision listed above. (delete what's not applicable)

My submission is

I am a member of Whangarei Pistol Club, a competitive and training facility for both civilians as well as the police and army services personnel. Imposing a sound and time restriction negatively impacts both. I feel that no consideration has been given in regards to the pistol club and as such it is being maligned through this plan change. How is it that noise restrictions do not apply to unamplified noise from sporting events, when the noise from such events of a varying noise level for a constant period of time?

My reasons are (attach additional pages if required)

In relation to Whangarei Pistol Club, it must be noted that this is also the training facility for New Zealand's Commonwealth Games shooters and other international shooters. The small bore and air pistol shooters, use low / subsonic ammunition, with the air pistol shoots being indoors on Wednesday nights for practice purposes. Young people have the opportunity to join the pistol shooting sport in a safe and educated environment.

State the decision you wish Council to make to ensure the issues you raise can be dealt with (i.e. give precise details of what you would like included or deleted from the plan)

1. A 90db LAF max level for shooting ranges at the notional boundary, consistent with other territorial authorities in New Zealand.
2. Open air center fire ranges be closed between sunset and 08:00 hours.
3. Indoor ranges and sub-calibre ranges using subsonic ammunition and air pistol ranges, be unrestricted in their opening times.
4. An appropriate review of NAV proposal regarding shooting ranges noise levels, to a realistic level (not exceed 90db LAF max). No shooting within outdoor ranges shall occur between sunset and 08:00. Indoor and small bore ranges, using subsonic ammunition and air pistol; air rifle ranges be exempt from the closed period restriction.

I wish to be heard in support of my submission

The specific provisions of the Plan Change that my submission relates to are

INTRODUCTION

Hancock Forest Management New Zealand Limited (HFM) manages approximately 11,600 hectares of plantation forest in the Whangarei District on behalf of our client Taumata Plantations Limited of which approximately 95% is freehold, and the remainder predominantly Maori lease. Of the total area under management, 8,614ha are productive land and the remainder (25%) indigenous reserves. This makes HFM one of the largest private land managers in the district.

Our forests provide employment, both direct and indirect, and a recreational resource along with their primary purpose of being a sustainable source of wood fibre for the domestic and export market. The forest also provides many environmental benefits including soil conservation, improved water quality and quantity, carbon sequestration and habitat for biodiversity.

SUBMISSION

HFM is in support of the Plan Change 110 NAV.

~~I support/oppose/seek~~ amendment to the specific provision listed above. *(delete what's not applicable)*

My submission is

1.HFM supports the Policies NAV.4.2.b and NAV.4.4

2.HFM supports the noise limits NAV.6.1 which excludes the use of mobile machinery used for a limited duration as part of agricultural (includes forestry activities) activities in the Countryside.

3.HFM supports the explosive use limits NAV.6.9

My reasons are *(attach additional pages if required)*

Ensuring primary rural activities are encouraged to operate in the Whangarei District under a Plan that takes into account reverse sensitivity issues and recognises that forestry is a normal rural practice.

State the decision you wish Council to make to ensure the issues you raise can be dealt with *(i.e. give precise details of what you would like included or deleted from the plan)*

Retain Policies NAV.4.2.b and NAV.4.4

Retain NAV.6.1 Noise Arising from Activities within Environments

Retain NAV.6.9 Explosives Use

The specific provisions of the Plan Change that my submission relates to are

The fact that the restrictions seem to be directed at the Whangarei shooting clubs only

I ~~support~~/oppose/~~seek~~ amendment to the specific provision listed above. (delete what's not applicable)

My submission is

I oppose the amendment, of reducing the sound level to 50db. On the grounds of been totally unrearlistic.

On the grounds that the sane restriction are not been imposed on the other organisations that use the same facilaty [Police and Army]

Dose that also mean that we would not be able to use a lawn mower to mow the lawns as most lawn mowers exceed 50 db.

My reasons are (attach additional pages if required)

The Whangarei club, is a safe club, that teaches younget people how to safely use firearms in a controled envieramen.

And a number of its members have represented Whangarei New Zealand in international compertisions, around the world.

We as members have spent a lot of time and money to ensure we have an safe facilaty. And the Tole stadium? what is the db rating been imposed on them

State the decision you wish Council to make to ensure the issues you raise can be dealt with (i.e. give precise details of what you would like included or deleted from the plan)

I would loke to see that the db restriction be not changed and maintained at 90db.

The times stay at the present time that existed prior the the WDC Plan Change 110.

I would like heard in support of my submission, but are posted to Waiouru Military camp till 3rd May 2015.

Thank you R
ay Trembath

2/01/2015. Submission on W.D.C. Plan Change 110

2/01/2015. **Submission on W.D.C. Plan Change 110**

We object in the strongest possible terms to the propose Plan Change 110 part of NAV 6.4 which states;

NAV 6.4 Sound levels from Shooting Range activity shall not exceed 50 db LAF max at the notional boundary of any noise sensitive or visitor accommodation. No shooting within a range shall occur between 17.00 and 0900 hours.

We object on the following grounds;

- a. The 50 db LAFmax is too restrictive when the limit set in other jurisdictions is 65db and the Military who use similar small arms to many rifle and pistol clubs are permitted 90db limit reference NAV 6.10. Both Military and Police also use our range for their training purposes.
- b. The time period for range use of 0900to 1700 hours is too restrictive and makes no allowance for weekday evening shooting practice. Nor any consideration for location, firearm type or caliber or whether indoor or outdoor ranges are being used. For example the small bore and air pistol shooters use low to sub-sonic ammunition and the air pistol shoots indoors on a Wednesday night for practice purposes, some of these shooters are NZ Commonwealth Games and other Internationally recognized shooters to represent our country. Both of these activities provide opportunity for young people to enter the sport of pistol shooting in a safe environment.
- c. We ask why has shooting been singled out when other sports are exempt?, namely NAV 6.1 Note 9 the noise rules do not apply to the following activities; Unamplified noise from sporting events in Open Space Environments where these occur for up to 20 hours per week between 0700 and 2100 hours.

It is our recommendation that;

The noise level for shooting ranges be increased to 90 db LAF max at the boundary to be consistent with other territorial authorities in New Zealand.

- a. Open air centre fire ranges be closed between sunset and 0800 hours.

- b. Indoor ranges and sub-calibre ranges using sub sonic ammunition and air pistol ranges be unrestricted in their opening times.

This would result in a re-wording of NAV 6.4 as follows;

Sound levels from shooting range activity shall not exceed 90.db LAFmax at the notional boundary of any noise sensitive activity or visitor accommodation. On outdoor ranges no shooting within a shooting range shall occur between sunset and 0800 hours. Indoor ranges and small bore ranges using sub sonic ammunition and air rifle or air pistol ranges are exempt from the closed period restriction.

B.Harris

Secretary

I support/oppose/seek amendment to the specific provision listed above. (delete what's not applicable)

My submission is

I oppose the amendment which is seeking to drop levels from its present rating down to 50db.

My reasons are (attach additional pages if required)

The Royal New Zealand College (RNZPC) and Northland Armed Offenders currently train Police staff at the Maunu Range in firearms use and certification. The range is centrally located servicing Police staff from Waipu up to Kaikohe and beyond. Central to our submission is that its location supports training whilst minimising the affect on deployment or logistics. The venue offers a suitable mix of indoor and outdoor training areas which support both our simulated and scenario based exercises as well as providing suitable secure storage for training equipment. The Maunu Range is particularly useful to the Police given that staff attending training can at short notice be quickly redeployed within the greater Whangarei district in an emergency. At the time of writing this, I am not aware of the availability of any suitable alternative venues for our intended use.

State the decision you wish Council to make to ensure the issues you raise can be dealt with (i.e. give precise details of what you would like included or deleted from the plan)

Should existing usage rights not apply in this case, I would like to see the maximum allowed noise be set at a level which supports and accommodates the RNZPC and AOS programme. RNZPC: Each eligible staff member (currently 300+) is required to re-certify using live ammunition once a year and only between January and July. Shooting in this case is never outside the hours of 9am - 3.30pm. From tests carried out in 2009, the expected noise level is anticipated to be in the region of 90db. The district training package currently uses a suppressed M4 rifle and a Glock 9mm pistol. This has been the case for at least the last 8 years and no deviation in anticipated in the foreseeable future. AOS: The range is used by staff a handful of times a year within similar parameters to the RNZPC.

Attached please find my submission to the PC110.

I ~~support/oppose~~/seek amendment to the specific provision listed above. (delete what's not applicable)

My submission is

That the acceptable noise level at the boundary be increased to 90DB. and the allowable hours for shooting be increased.

My reasons are (attach additional pages if required)

As a founding member of the Whangarei Sporting and development trust which has owned and operated the Whangarei Pistol Club Shooting range for the last 10 years, I feel that this proposed change of District plan could adversely affect our goal. At present we trained at least 100 young people per year the safe and responsible use of firearms plus our range is available (without Charge) to all young training groups, such as the Sea Scout, guides, Air Training cadets Scouting groups etc. Our young people get expert training from ex Commonwealth and Olympic Representatives and at present members of the club hold many New Zealand records. We have trained numerous shooters that have represented New Zealand at Overseas Shoots and events. All of these activities and training would be adversely affected if this proposal was passed.

State the decision you wish Council to make to ensure the issues you raise can be dealt with (i.e. give precise details of what you would like included or deleted from the plan)

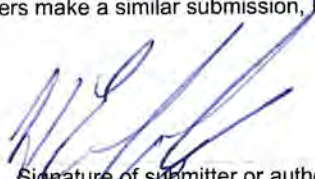

Increase the allowable noise level to 90dbs between the hours of 0800 and 1900hrs.
Allow shooting that is 50dbs or under at any time.

The specific provisions of the Plan Change that my submission relates to are

Change to the acceptable decibel rating at gun ranges

Operating times for gun ranges.

as per part of NAV 6.4 WDC Plan Change 110.

28 JAN 2015
WHANGAREI
DISTRICT COUNCIL

I ~~support~~/oppose/seek amendment to the specific provision listed above. (delete what's not applicable)

My submission is

that the acceptable decibel rating be 90 dbi.
that the operating hours be Sunrise to Sunset
as in existing legislation.

My reasons are (attach additional pages if required)

that the proposed 50 dbi is unworkable by any reasonable standard, also the Whangarei Pistol Club is a Military designated range and 90 dbi is the accepted standard for such ranges.
that the operating hours do not allow for sub-calibre indoor air pistol training, these pistols emit almost no noise.

State the decision you wish Council to make to ensure the issues you raise can be dealt with (i.e. give precise details of what you would like included or deleted from the plan)

that sound levels be 90 db max at the notional boundaries. that outdoor shooting be allowed between sunrise and sunset.
that sub-calibre air pistols be exempt from any restriction of hours.

I wish to be heard in support of my submission

If others make a similar submission, I will consider presenting a joint case with them at a hearing.

28.01.2015

Submission on W.D.C Plan Change 110

I object to the proposed Plan Change 110 part of NAV6.4 which states;

NAV 6.4 Sound levels from Shooting Range activity shall not exceed 50db LAF max at the notional boundary of any noise sensitive or visitor accommodation. No shooting within a range shall occur between 17.00 and 0900 hours.

I object on the following grounds;

- a. The 50db LAF max is too restrictive when the limit set in other jurisdictions is 65db and the Military, who use similar small arms to those used at many rifle and pistol clubs, are permitted 90db limit reference NAV 6.10. Both military and Police use our range for their training purposes. Neither would be able to use our range if the proposed changes proceed.
- b. The time period for range use of 0900 to 1700 hours is too restrictive and makes no allowance for weekday evening shooting practice. Nor is there any consideration of location, firearm type or calibre, or whether indoor or outdoor ranges are being used. For example, the small bore and air pistol shooters use sub-sonic ammunition. The indoor air pistol range is used on a Wednesday night for practice purposes; some of these shooters are NZ Commonwealth Games and other internationally recognised shooters who represent our country. Some of these shooters are NZ record holders. Small bore and air pistol shooting activities at our range provide opportunities for young people to enter the sport of pistol shooting in a safe environment.
- c. I ask why shooting has been singled out when other sports are exempt? Namely, NAV 6.1 Note9- the noise rules do not apply to the following activities; unamplified noise from sporting events in Open Space Environments where these occur for up to 20 hours per week between 0700 and 2100 hours.

It is my recommendation that;

The noise level for shooting ranges be increased to 90db LAF max at the boundary to be consistent with other territorial authorities in New Zealand.

- a. Open air centre fire ranges be closed between sunset and 0800 hours.
- b. Indoor ranges and sub-calibre ranges where sub-sonic ammunition is used, and air pistol ranges be unrestricted in their opening times.

This would result in a re-wording of NAV 6.4 as follows;

Sound levels from shooting range activity shall not exceed 90db LAF max at the notional boundary of any noise sensitive or visitor accommodation. On outdoor ranges no shooting within a shooting range shall occur between sunset and 0800 hours. Indoor ranges, small bore ranges using sub-sonic ammunition, air rifle and air pistol ranges are exempt from the closed period restriction.

Paul Jarman

Whangarei Pistol Club Shooter

~~I support/oppose/seek amendment to the specific provision listed above.~~ (delete what's not applicable)

My submission is

The Whangarei Pistol Club has been running for many years and does not create higher than average noise or vibration levels which adversely affect the public. Ordinary citizens using chainsaws or lawnmowers would probably be louder than the noise from the Club. The Pistol Club is enclosed within an old quarry which mitigates any noise, and shooting is limited to daylight hours.

The Club tries to manage any noise and vibrations and would be unduly affected by changing the rules at this late stage. The Club has spent a lot of time, money and energy improving the facilities and with the existing rules in mind.

Shooters range from the police training squads to cadets to family shooters and many who work full time. Changing the operating times and noise levels would mean that many of

My reasons are (attach additional pages if required)

these people would be unable to use the facilities they have worked so hard to produce simply because they could not physically meet the new stringent criteria proposed.

State the decision you wish Council to make to ensure the issues you raise can be dealt with (i.e. give precise details of what you would like included or deleted from the plan)

Retain the status quo and work with community groups within the District.

I wish to be heard in support of my submission

Yes No

If others make a similar submission, I will consider presenting a joint case with them at a hearing.

If you are a person who could gain an advantage in trade competition through the submission, your right to make a submission may be limited by clause 6 (4) of Part 1 of Schedule of the Resource Management Act 1991.

~~I support/oppose/seek amendment to the specific provision listed above.~~ (delete what's not applicable)

My submission is

The Whangarei Pistol Club has been running for approximately 30 years and has all the necessary resource consents. Setting the new level at 70 decibels would prohibit the use of anything other than an air guns. At no time has any of the noise been registered higher than allowable Council decibel levels. The new proposed levels are lower than the use of lawnmowers, chainsaws, small motors etc.

This club is registered as a sporting club so noise levels allowed should be equal to any football or basketball clubs in the immediate area.

The proposed change would adversely affect training in the use of firearms for younger people eg. cadets air pistol training etc.

These premises have taken some considerable time and money to build and have been

My reasons are (attach additional pages if required)

certified as fulfilling all pistol association and Council criteria.

Changing hours of use would adversely affect training for shooters competing overseas.

State the decision you wish Council to make to ensure the issues you raise can be dealt with (i.e. give precise details of what you would like included or deleted from the plan)

To leave status quo.
