**Notes for Appendix 6A:**

- a) "HGV" stands for Heavy Goods Vehicle.
- b) Where there are multiple activities on the site and each activity requires vehicle parking in terms of Appendix 6A, the total vehicle parking shall be the combined total requirement for all activities.
- c) Where the calculation of required parking spaces results in a fraction of a whole space, any fraction less than, or equal to, one half shall be disregarded; and any fraction over one half shall count as one space.
- d) For the purposes of assessing parking requirements, the following shall be considered to be Retail activities; land and/or buildings from which goods, merchandise, equipment or services are sold, exposed, displayed or offered for sale or direct hire to the public, including a market; a showroom; a banking chamber (being that part of a bank which includes all the teller areas and all areas to which the public generally has access); off-licensed premises; and betting premises.
- e) If any activity is not represented in the list above, the activity closest in nature to the new activity should be used, or where there are two or more similar activities, the activity with the higher parking rate shall apply. Parking requirements are triggered generally by activities contained in buildings.
- f) Part of any yard of a service station may be used to provide a loading space provided that the loading space and method of loading shall at no time:
  - g) Cause the footpath or access to the rear of the site or access to an adjacent property to be blocked; or
  - h) Create a traffic hazard on the road.
- i) In the Countryside and Coastal Countryside Environment, the "requirement parking spaces" need only be provided in the form of sufficient space to accommodate that number of parked vehicles and the associated manoeuvring, all of which is clear of active working areas and public roads.
