

40 Business 2 Environment Rules

40.1 Introduction

This chapter contains rules governing land uses in the Business 2 Environment. The boundaries of this Environment are shown on the Planning Maps. The Environment generally contains a wide range of business and light industrial areas on the fringes of the Central Business District. Road Transport rules and Resource Area rules also apply in this Environment. The Resource Area rules apply only to the areas indicated on the Planning Maps.

40.2 Prohibited Activities

The following activity is a prohibited activity, for which no resource consent shall be granted:

- Use, storage or disposal of radioactive material with an activity exceeding 1000 terabequerels.

40.3 Business 2 Environment - Activity Rule Table

40.3.1 Activities Generally

<p>Any activity is a permitted activity if:</p> <ol style="list-style-type: none"> It does not involve intensive livestock farming, mineral extraction, food irradiation; and It is not an activity involving any of the following on a commercial basis: bone boiling or crushing; fish cleaning, curing and processing; flax pulping; flock manufacturing or teasing of textiles; refuse accumulation; disposal of sewage; storage, drying or preserving of bones, hides, hooves, or skins; tallow melting, tanning; wood pulping; wool scouring; and Retailing and office accommodation activities do not occupy more than 300.0m² gross floor area; and It is not an activity that is classified as an offensive trade in the Health Act 1956. 	<p>Any activity that does not comply with a condition for a permitted activity is a discretionary activity if:</p> <ol style="list-style-type: none"> It does not involve intensive livestock farming; and Retailing and office accommodation activities occupy a gross floor area of more than 300.0m²; and It is not an activity that involves food irradiation; and It is not an activity involving any of the following on a commercial basis: bone boiling or crushing; fish cleaning; curing and processing; flax pulping; flock manufacturing or teasing of textiles; refuse accumulation; disposal of sewage; storage, drying or preserving of bones, hides, hooves, or skins; tallow melting; tanning; wood pulping; wool scouring; and It is not an activity that is classified as an offensive trade in the Health Act 1956. <p>Any activity that does not comply with the standards for a discretionary activity is a non-complying activity.</p>
--	---

40.3.2 Hazardous Substances

<p>a) The use, storage or on-site movement of hazardous substances is a permitted activity if it complies with the conditions for permitted activities in Appendix 8; and</p> <p>b) The movement of hazardous substances between sites is a permitted activity if conducted by means of an underground pipeline.</p>	<p>a) The use, storage or on-site movement of hazardous substances is a discretionary activity if it does not comply with a condition for permitted activities in Appendix 8; and</p> <p>b) The movement of hazardous substances between sites is a discretionary activity if conducted by means of an aboveground pipeline.</p>
--	--

40.3.3 Network Utility Operations

<p>The following activities related to network utility operators, excluding electricity infrastructure are a permitted activity:</p> <p>a) The establishment of junction boxes, substations and other equipment cabinets required as part of a utility network that have a height no greater than 1.5m and a ground coverage not exceeding 3.0m²; and</p> <p>b) The establishment of, or extension to, overhead telecommunication lines located on single poles; and</p> <p>c) The establishment of network utility operations for the purposes of wireless communication, or the measurement, collection and distribution of meteorological information, that comply with the rules for Aerials and Aerial Support Structures; and</p> <p>d) The minor upgrading, replacement, removal and maintenance of existing network utility operations facilities; and</p> <p>e) The establishment of, or extension to underground network utility operations, including gas lines with a maximum operating pressure not exceeding 2000 kilopascals.</p>	<p>Network utility operations that do not comply with a condition for a permitted activity are a restricted discretionary activity.</p> <p>Discretion is restricted to:</p> <ol style="list-style-type: none"> i. Scale, bulk and form of the installation(s) above the ground; ii. Cumulative effects of additional structures; iii. Shading effects; iv. Effects on amenity values; v. Effects on landscape/streetscape values; vi. Effects on ecological values; vii. Effects on heritage values; viii. Effects on cultural values; ix. Effects on public health and safety; x. Issues of reverse sensitivity.
--	---

40.3.4 Provision of Parking Spaces

<p>Any activity is a permitted activity if:</p> <p>a) Parking spaces are provided in accordance with Chapter 47; and</p> <p>b) No formed parking space is constructed or provided within 2.5m of a road boundary.</p>	<p>Any activity that does not comply with a condition for a permitted activity is a restricted discretionary activity.</p> <p>Discretion is restricted to:</p> <ol style="list-style-type: none"> i. Those matters listed in Chapter 47 Road Transport Rules; ii. Those matters listed under Rule 40.4.6(Landscaping).
--	--

40.3.5 Traffic Movements

<p>Any activity is a permitted activity if:</p> <p>a) It does not generate more than 200 traffic movements in any 24-hour period, where the activity gains access to a Local Road; or</p> <p>b) The activity complies with Sheet 4 of the Whangarei District Council's Environmental Engineering Standards 2010 where it gains access to a Collector or Arterial Road, or a State Highway.</p> <p>Note: Where access is gained to a Limited Access Section of State Highway, it may be necessary to liaise with Transit New Zealand.</p> <p>Provided always and notwithstanding the traffic movements requirements in this Rule if the activity under consideration is a mineral extraction activity and it is located within a Mineral Extraction Area then the traffic movements requirements for that activity will be determined in accordance with the rules in Chapter 64.</p>	<p>Any activity that does not comply with a condition for a permitted activity is a controlled activity.</p> <p>Control is reserved over:</p> <ol style="list-style-type: none"> i. Parking, loading and manoeuvring requirements; ii. Need for acceleration and deceleration lanes; iii. Location of activity; iv. Type, frequency and timing of traffic; v. Access design, number and location of vehicle crossings; vi. Safety of pedestrians; vii. Traffic safety and visibility; viii. Effects on the amenity of the locality; ix. Effects of dust; x. Need for forming or upgrading roads in the vicinity of the site; xi. Need for traffic control, including signs, signals and traffic islands.
--	---

40.3.6 Signs

<p>a) The construction or placement of a sign which is not visible from a public place or neighbouring property (s) is a permitted activity.</p> <p>b) The construction or placement of a sign which is visible from a public place or neighbouring property(s) is a permitted activity if:</p> <ol style="list-style-type: none"> i. The sign is required under health and safety legislation; or ii. The sign is erected by a road control authority for the purposes of traffic control or public safety and it is located within the legal road reserve; or iii. The sign relates to goods and services available on site, or is a property name sign, or is a community sign; and iv. The sign does not obscure any official signs or traffic signals; and v. The sign is static and not flashing; and vi. If illuminated, the sign is not within 20.0m of any road intersection; and 	<p>The construction or placement of a sign that does not comply with a condition for a permitted activity is a restricted discretionary activity.</p> <p>Discretion is restricted to:</p> <ol style="list-style-type: none"> i. Traffic safety; ii. Whether the proposed sign will have an effect on visual amenity values by: <ul style="list-style-type: none"> • Being visually inappropriate to the neighbourhood. The Council will ensure that general advertising signs do not dominate a site or the surrounding area and will limit such signs accordingly. • Being visually obtrusive on Living, Countryside or Open Space Environments. In general, the height of freestanding signs should be related to the height of surrounding buildings. • Creating an effect of clutter in the immediate neighbourhood because of poor relationship to other signs or elements. In general, clutter will be determined by the amount of signage, in relation to the frontage of the site.
--	--

<p>vii. No more than 5 signs are displayed per site; and</p> <p>viii. A free standing sign is no higher than 3.5m; and</p> <p>ix. The total area of all signs is no greater than 3.0m² on sites with frontage less than 25.0m; and</p> <p>x. On sites with frontage greater than 25.5m, the total area of all signs shall be 0.12m² per metre of frontage to maximum area of 6.0m²; and</p> <p>xi. As an alternative to v. to x. above, signs complying with the standards set out in Appendix 12 are permitted activities; and</p> <p>xii. Where the road has a speed limit of 70kph or greater, the sign is located so as to provide an unrestricted view for the motorist for a minimum distance of 250.0m; and</p> <p>xiii. Where establishments on rear sites share an access way, a sign situated where the access way adjoins the road may include information relating to some or all of the activities located on sites served by the access way.</p> <p>Notes:</p> <ol style="list-style-type: none"> 1. Signs within the legal road boundary, or on road verges and road reserves are regulated by Council Bylaws. 2. Temporary signs, and signs on vehicles are regulated by Council Bylaws. 3. Signs located in public places are regulated by Council Bylaws. 	<ul style="list-style-type: none"> • Being sensitive (in terms of scale, form and harmony) to the building on which it is to be erected or displayed, to the immediate surroundings or to the places from which it can be seen. • Obscuring or detracting from important visual landmarks of the City, such as visual landmarks, or buildings or areas of architectural or heritage value. • Obscuring or detracting from landscape elements in the front yard of a site. • Being of such construction that its method of support or fixing is not aesthetically incorporated into its design.
--	--

40.3.7 Artificial Lighting

<p>Artificial lighting is a permitted activity if either:</p> <ol style="list-style-type: none"> a) The lighting is required under health and safety legislation; or b) The light is a street light, navigation light, or traffic signal; c) The following standards are complied with: <ol style="list-style-type: none"> i. The added illuminance onto any other site measured at the boundary does not exceed 10 lux at any receiving property boundary, or 15 lux at any road reserve boundary; and ii. The artificial light is shielded in such a manner that light 	<p>Any activity that does not comply with a standard for a permitted activity is a restricted discretionary activity.</p> <p>Discretion is limited to:</p> <ol style="list-style-type: none"> i. Orientation, strength, intensity, colour, frequency of flashing of the light; ii. Effects on traffic safety; iii. Positive effects on pedestrian safety; iv. Effect on amenity values.
--	---

<p>emitted by the fixture is projected below a horizontal plane running through the lowest point on the fixture; and</p> <p>iii. The lower edge of the shield, as required by ii) above, is to be at or below the centreline of the light source; and</p> <p>d) The light is static, and is not flashing; (except in the case of lighting on vehicles associated with mineral extraction and related activities, or flashing beacons in accordance with the Land Transport Road Use Rule 2004.</p> <p>e) The artificial lighting complies with AS/NZS 1158/1996.</p> <p>Notes:</p> <p>1. If the object or device that contains Artificial Lighting is a sign, then Rule 39.3.6 Signs is solely applicable.</p> <p>2. See Appendix 15 for illustration of c) (ii) and (iii) above.</p>	
--	--

40.3.8 Noise *(Deleted – refer to Noise and Vibration Chapter)*

40.3.9 Construction Noise *(Deleted – refer to Noise and Vibration Chapter)*

40.3.10 Vibration *(Deleted – refer to Noise and Vibration Chapter)*

40.3.11 Electromagnetic Radiation

<p>Any activity is a permitted activity if:</p> <p>a) Exposures comply with NZS 2772.1:1999, Radio Frequency Fields Part 1: Maximum Exposure Levels 3 kHz – 300 GHz;</p>	<p>Any activity that does not comply with a condition for a permitted activity is a discretionary activity.</p>
---	--

40.3.12 Electricity Transmission Lines *(Deleted 13/01/2014 - refer to Network Utilities Chapter)*

40.3.13 Outdoor Storage

<p>Any activity is a permitted activity if:</p> <p>a) Outdoor areas of storage or stockpiles of materials or equipment comply with building height, setbacks and daylight angle rules; and</p> <p>b) Outdoor areas of storage or stockpiles of materials or equipment are contained or maintained to prevent the dispersal of dust or airborne contaminants beyond the site; and</p> <p>c) Materials are stored in a way that does not provide a food source for vermin; and</p>	<p>Any activity that does not comply with a condition for a permitted activity is a restricted discretionary activity.</p> <p>Discretion is restricted to:</p> <p>i. Dust effects;</p> <p>ii. Smell effects;</p> <p>iii. Visual effects;</p> <p>iv. Amenity effects;</p> <p>v. Effects on amenity values;</p> <p>vi. Effects on health and safety;</p> <p>vii. Quality of the stormwater runoff.</p>
---	--

<p>d) The best practicable option is adopted to prevent or minimise contaminants from stockpiles entering watercourses or water bodies.</p>	
<p>Provided always and notwithstanding the requirements in this Rule, if the activity under consideration is a mineral extraction activity and it is located within a Mineral Extraction Area then the outdoor storage requirements for that activity will be determined in accordance with the rules in Chapter 64.</p>	

40.3.14 Aerials and Aerial Support Structures

<p>Aerials and/or aerial support structures are a permitted activity if:</p> <p>a) No dish aerial exceeds a diameter of 2.4m; and</p> <p>b) No aerial and/or aerial support structure exceeds a height of 19.0m; and</p> <p>c) All aerials and/or aerial support structures comply with the relevant building setback and daylight angle requirements for the Environment within which they are located.</p>	<p>Any aerial and/or aerial support structure that does not comply with a condition for a permitted activity is a restricted discretionary activity.</p> <p>Discretion is restricted to:</p> <ol style="list-style-type: none"> i. The design and external appearance of buildings and structures; ii. Landscape treatment and screening; iii. Site location and layout; iv. Amenity effects including visual effect and glare; v. Construction materials.
---	---

40.4 Business Environment 2- Building Rule Table

40.4.1 Building Height

<p>Construction or alteration of a building is a permitted activity if:</p> <p>a) The height of the building does not exceed 15.0m; and</p> <p>b) The height of any building on a site adjoining a Living or Open Space Environment does not exceed the daylight angle stated for the adjoining Environment.</p>	<p>Construction or alteration of a building that does not comply with a condition for a permitted activity is a restricted discretionary activity.</p> <p>Discretion is restricted to:</p> <ol style="list-style-type: none"> i. The scale and bulk of the building in relation to the site; ii. The built characteristic of the neighbourhood; iii. The extent to which the effects of the height can be mitigated by setbacks, planting, design or the topography of the site; iv. Effects on landscape values; v. Effects on availability of daylight; vi. Effects on amenity values.
<p>Provided always and notwithstanding the height requirements in this Rule, if the activity under consideration is a mineral extraction activity and it is located within a Mineral Extraction Area then the building height requirements for that activity will be determined in accordance with the rules in Chapter 64.</p>	

40.4.2 Building Setbacks

<p>Construction or alteration of a building is a permitted activity if the building is setback at least:</p> <p>a) 2.5m from road boundaries, or any building line restriction shown on the Planning Maps; and</p> <p>b) 3.0m from any boundary of a Living, Open Space or Business 3 Environment; and</p> <p>Note: The provisions of Rules 58.2.6 and 59.2.3 also apply to building setbacks.</p>	<p>Construction or alteration of a building that does not comply with a condition for a permitted activity is a restricted discretionary activity.</p> <p>Discretion is restricted to:</p> <p>i. The outlook and privacy of adjoining and adjacent properties;</p> <p>ii. Shading of adjoining properties;</p> <p>iii. Effects on natural character;</p> <p>iv. Effects on landscape values;</p> <p>v. Effects on heritage values;</p> <p>vi. Effects on natural functioning of ecosystems.</p>
<p>Provided always and notwithstanding the setback requirements in this Rule, if the activity under consideration is a mineral extraction activity and it is located within a Mineral Extraction Area then the building setback requirements for that activity will be determined in accordance with the rules in Chapter 64.</p>	

40.4.3 Building Setbacks from Water Bodies

<p>Construction or alteration of a building is a permitted activity if the building is set back at least:</p> <p>a) 27.0m from Mean High Water Springs; or</p> <p>b) From the top of the bank of any river that has a width of less than 3.0m, or a lake under 8ha:</p> <p>i. 5.0m where the dominant slope is less than 8 degrees;</p> <p>ii. 10.0m where the dominant slope is greater than 8 degrees but less than 15 degrees;</p> <p>iii. 20.0m where the dominant slope is more than 15 degrees; or</p> <p>c) 27.0m from the top of the bank of a river equal to 3.0m or more in width, any lake over 8ha in area or any river identified in Appendix 5 as an Esplanade Priority Area; or</p> <p>d) 5.0m from the top of the bank of all other water bodies, unless an esplanade reserve already exists, in which case a 5.0m setback from the edge of the landward side of the esplanade reserve shall apply.</p> <p>Note:The provisions of Rules 58.2.6 and 59.2.3 also apply to building setbacks.</p>	<p>Construction or alteration of a building that does not comply with a condition for a permitted activity is a restricted discretionary activity.</p> <p>Discretion is restricted to:</p> <p>i. The continued availability of land in Esplanade Priority Areas;</p> <p>ii. Effects on natural character;</p> <p>iii. Effects on natural functioning of an ecosystems;</p> <p>iv. Effects on landscape values;</p> <p>v. Effects on heritage values;</p> <p>vi. Effect on public access;</p> <p>vii. Effect on river maintenance and hazards;</p> <p>viii. The protection of the conservation, ecological, recreation, access and hazard mitigation values of land in Esplanade Priority Areas and existing esplanade reserves or strips;</p> <p>ix. The suitability of the proposed location of the building on the site.</p>
--	--

40.4.4 Building Daylight Angles

<p>Construction or alteration of a building is a permitted activity if:</p> <p>a) Any building on a site adjacent to any Living or Open Space Environment does not penetrate the building daylight angles defined in Appendix 11, measured from the Environment boundary.</p>	<p>Construction or alteration of a building that does not comply with a condition for a permitted activity is a restricted discretionary activity.</p> <p>Discretion is restricted to:</p> <ul style="list-style-type: none"> i. The available daylight to adjoining properties; ii. The privacy of the adjoining properties; iii. Effects on shading; iv. Effects on amenity values.
--	---

40.4.5 Outdoor Living Courts

<p>Construction or alteration of a residential unit is a permitted activity if an outdoor living court is provided as follows:</p> <p>a) The court must have a minimum area capable of containing a circle 5.0m in diameter; and</p> <p>b) If the residential unit does not have a habitable room located on the ground level, a balcony must be provided instead of a court, with a minimum area of 10.0m² and a minimum dimension of 2.0m; and</p> <p>c) The court or balcony must be accessible from the lounge, kitchen or dining area of the residential unit; and</p> <p>d) The court must not contain structures which would impede its use as an outdoor living court.</p>	<p>Construction or alteration of a residential unit that does not comply with a condition for a permitted activity is a restricted discretionary activity.</p> <p>Discretion is restricted to:</p> <ul style="list-style-type: none"> i. The privacy and amenity of the occupants on-site; ii. The open space nature of the particular neighbourhood.
--	---

40.4.6 Landscaping

<p>Construction of a building, or site redevelopment is a permitted activity if:</p> <p>a) All land within 2.5 m of the road boundary, other than accesses, is planted in trees, shrubs or grass; and</p> <p>b) The planting is completed within 6 months of occupation of the building and is maintained continuously thereafter.</p>	<p>Construction of a building, or site redevelopment that does not comply with a condition for a permitted activity is a restricted discretionary activity.</p> <p>Discretion is restricted to:</p> <ul style="list-style-type: none"> i. Effects on neighbours; ii. Effects on the amenity of the locality; iii. Alternative means of landscaping or screening.
---	---

40.4.7 Coastal Minimum Floor Level

<p>Construction or alteration of a building or structure is a permitted activity if:</p> <p>a) There is a minimum floor level of 2.5m above One Tree Point Datum Mean Sea Level 1964.</p>	<p>The construction or alteration of a building or structure that does not comply with a condition for a permitted activity is a restricted discretionary activity.</p> <p>Discretion is restricted to:</p> <ul style="list-style-type: none"> i. Construction or alteration of a building or structure in relation to its location;
--	---

	<ul style="list-style-type: none"> ii. The avoidance, remediation or mitigation of coastal hazards; iii. Floor level in relation to One Tree Point Datum Mean Sea Level 1964.
--	---

40.5 Principal Reasons for Rules / Explanations

Activities Generally

This rule names various activities for which a resource consent is required. The benefit of activity lists is that they are relatively easy to use. Where activities are grouped on the basis of like effects on differing Environments, the Plan can still reflect the effects based approach required by the Resource Management Act 1991.

The listed activities are all associated with effects that are unacceptable in this Environment without careful management. The identification of "commercial" activities assumes that there is a greater likelihood of adverse effects arising from activities carried out at a commercial scale than at a non-commercial scale. Effects of these activities are not consistent with the character, aims and values of this Environment. Many of these activities have effects such that they require an offensive trade licence under the Health Act 1956.

Hazardous Substances

See Appendix 8.

Provision of Parking Spaces

See Chapter 58.

Traffic Movements

While Business Environments tend to be very busy in terms of vehicle movements, significant increases in traffic can result in adverse effects on: amenity, noise levels, pedestrian safety, road safety and efficiency, dust, odour and parking. This is particularly the case where access is gained directly from an arterial road, due to the existing volumes of traffic. This rule seeks to control activities that will result in significant increases in traffic to any area (including traffic that parks on or off the site or drives through the site), while allowing those activities that will not result in large volumes of traffic.

Signs

Signs may adversely affect the visual amenity and traffic safety in this Environment. They are therefore controlled, with limited provision made for signs associated with activities occurring on-site, limited dimensions and a maximum number of signs set.

Artificial Lighting

Lighting can interfere with the enjoyment of a property and the sleep of occupants. Direct spill light and glare are consequences of outdoor lighting used to illuminate property. The effect of the rule is to state lighting levels that are compatible with the existing lighting character of this Environment. Street lights, navigation lights and traffic signals are exempted from the rule to preserve traffic and personal safety.

Electromagnetic Radiation

Certain utilities and other activities emit electromagnetic radiation or create electric fields, which are a health concern to some people living near them. Radio Frequency Fields (RF) are produced by broadcasting and microwave transmission activity. It is the antennae used for sending the signal which produce the Electromagnetic Radiation (EMR), which is within the 3 kHz to 300 GHz range of non-ionising radiation. This Plan is taking a cautious approach to the location of such activities within the Business Environments. An acceptable public level of exposure for EMR has been adopted from the New Zealand Standard, which has been thoroughly

researched and based upon scientific evidence. Setting a minimum distance enables provision for access, maintenance and public safety.

Outdoor Storage

The storage of materials outside can have an adverse visual effect, as well as contributing to air emissions. The rule aims to lessen the effects of this and thus reduce the effect on the amenity of the Business 2 Environment.

Aerials and Aerial Support Structures

The size and location of aerials and aerial support structures is controlled due to the visual intrusion or dominance that aerials and aerial support structures can have. Chapter HH of the Plan also seeks to control the visual impact that aerials and aerial support structures can have on Built Heritage.

Building Height

The height of buildings is an important factor in maintaining built amenity. Building height is limited to a scale generally considered acceptable in a Business Environment. The permitted activity rule allows for the development of commercial buildings. Higher buildings require further assessment as to their suitability, and a resource consent application is required.

Building Setbacks

Building setbacks play an important role in the overall amenity of a neighbourhood. The required front yard setback is to maintain the existing streetscape and to maintain a degree of spaciousness in an area. Side yard and rear yard setbacks are intended to provide adjacent properties with some protection from the bulk of buildings in close proximity, and also to assist in the provision of open space between sites. Setbacks from water bodies and the coast will preserve future availability of esplanade reserves, providing access space for water body maintenance and some flood protection.

Building Daylight Angles

The daylight angles are set to provide a reasonable amount of protection of daylight to a site from buildings on adjacent sites, especially adjoining the Living and Open Space Environments of tarmac, parking spaces, yards and storage areas.

Outdoor Living Courts

Courts provide outdoor living space, which is desirable for the health and enjoyment of occupants.

Landscaping

This rule is to ensure activities maintain a high standard of amenity, and to mitigate the adverse visual effects of expanses of tarmac, parking spaces, yards and storage areas.

Coastal Minimum Floor Level

Coastal flooding is a hazard that needs to be addressed and this hazard is not restricted to those areas covered by the Coastal Hazard Areas. By ensuring that the floor level of structures and buildings is at least 2.5m above One Tree Point Datum Mean Sea Level 1964, this risk will be significantly reduced. The 2.5m will take into account a rise in sea level of 0.5m, plus the instances of a spring tide and the surges associated with coastal storms.
