Public Utility Applications – Terms and Conditions

Introduction

Public Utility Applications are required for all new service connections, disconnections and modifications to the Whangarei District Council (WDC) utilities network. This includes potable water, waste water and storm water.

This application only relates to works between the council utility and the private/public property boundary. *If the existing utilities lay within private property this application applies to the network connection only.*

All utility works undertaken must be carried out by a WDC Approved Contractor.

Application Procedure

Complete and submit this application form along with supporting documentation and payment to a WDC Customer Services Representative at:

Forum North
5 Rust Avenue
Whangarei
Or:

Ruakaka Service Centre
Takutau Place
Ruakaka

WDC Approved Contractors and Customer Service Representatives can assist you with the application process.

Alternatively you can email any queries or your application to: mailroom@wdc.govt.nz

Application Requirements

- Ensure all fields are completed in full as incomplete applications may be rejected. The application must include a clearly detailed plan of intended works. A council service sheet and site plan marked-up to include the proposed connection point may be satisfactory.
- It is the applicant's responsibility to ensure that all drawings and supporting information is submitted in an acceptable format which also speeds up the processing of your application.
- Prior to approval all applicable fees (*see General Terms and Conditions below*), shall be paid in full. Upon approval the licensed contractor will carry out work in accordance with the approved plan, Council's specific requirements and current WDC Environmental Engineering Standards.

General Terms and Conditions

Application costs are in accordance with WDC fees and charges, available at WDC customer services or: <http://www.wdc.govt.nz/RatesandPayments/FeesandCharges/Pages/default.aspx>

Properties requiring new service connections are subject to Development Contribution assessment. Contributions must be paid in full prior to approval.

Further information on development contributions can be found at:

www.wdc.govt.nz/DevelopmentContributions

Council advises applicants to review the individual utility supply bylaws for additional terms and conditions of supply and connection.

Bylaws are available from WDC customer services or:

www.wdc.govt.nz/Bylaws

All works are to be carried out in accordance with council specifications and Environmental Engineering Standards (EES).

EES are available from WDC customer services or:

www.wdc.govt.nz/EnvironmentalEngineeringStandards

A Change of Use application may be required when properties with existing utilities are developed or redeveloped.

Applicants are advised that the cost of the physical works is specifically excluded from any charges relating to this application.

WDC recommend that applicants approach relevant utility licensed contractors for a quote and to establish contractor availability prior to submitting applications.

Costs may vary from contractor to contractor and this process will allow applicants to nominate their preferred contractor. Lists of Approved Contractors can be found on page 5 and 6 of this application form.

Other Terms and Conditions

All authorisations required from neighbours or governing bodies along with proof of all easements must be submitted with the application (if applicable).

Services to be constructed in the road corridor of a state highway require written approval from the New Zealand Transport Agency (NZTA).

Contact NZTA Whangarei:

09 430 4355

Services constructed in the railway corridor require written approval from Kiwi Rail Ltd.

Contact Kiwi Rail:

0800 801 070

Resource Consent is required from the Northland Regional Council for storm water discharge into a stream or river.

Water backflow prevention devices

Backflow device applications are free of charge however it is the owners' responsibility to arrange and cover costs for purchase and installation of the device.

Backflow facts and WDC approved installation contractors are available at WDC customer services or: <http://www.wdc.govt.nz/WaterandWaste/Water/Documents/Backflow-prevention-policy-and-code-of-practice-2012.pdf>

and:

<http://www.wdc.govt.nz/BuildingandProperty/BuildingConsents/Documents/Independent-Qualified-Persons-Register.pdf>

Backflow Prevention Devices are required on all industrial and commercial properties, as well as on domestic properties with private water storage for example, swimming pools, stock troughs and tanks. These devices are necessary to ensure the safety of drinking water.

Failure to install the device applied for within this application may result in WDC appointing a contractor to install the device and on charging the property owner.

Approvals / Suspension / Cancellation

Following approval, written authorisation will be given to the Owner / Agent and your nominated contractor, works must not be carried out prior to receipt of this letter or prior to receiving written authorisation. Should an application be suspended, the applicant will be advised accordingly in writing. Once the suspension has been resolved, approval may be given.

Applications are valid for 6 months from approval. Lapsed applications will be cancelled and deemed void (fees non-refundable or transferrable).

Development Contributions

Development Contributions may be required in accordance with the Local Government Act 2002. Development Contributions are charges that help Council fund the infrastructure needed to service growth within the district.

Development Contributions are assessed and may be payable on new service connections.

These are assessed in accordance with Councils Development Contributions Policy.

If Development Contribution charges are applicable an assessment will be issued and must be paid in full prior to Council authorising works.

For further information or an estimate of potential contributions please contact Councils Development Contributions Team.

Council Inspections

Inspections must be carried out by an authorised Council officer.

A minimum 24 hours prior notice shall be given when inspections are requested by the licensed contractor. Inspections must be scheduled with council infrastructure and services support on: 09 430 4200 please quote the utility number at this time.

During the inspection the council officer will review the physical connection, pipe tests, workmanship, and primarily compliance.

Where additional inspections are required the customer may be charged on an hourly rate basis.

Network As-built plans

As built plans of the council network can be obtained from customer services. Alternatively you can email mailroom@wdc.govt.nz and request these plans to assist you with preparing your application. There is no charge for these plans.

Completion As-built plans

All as-built plans shall comply with Council's drafting standards outlined in the current Environmental Engineering Standards .clause 1.7 and 1.11.1.3. which include GPS coordinates.

Where plans do not comply, Council may require submission of revised plans.

It is the licensed contractors' responsibility to ensure all asbuilts are submitted to council within 14 working days of council inspection, or as otherwise agreed.

Adequate allowance for the survey and drafting of the as-built plans must be factored for when quoting for the work.

Approved contractors

It is the applicant's responsibility to engage a approved contractor who in turn is required to ensure that the work proposed is viable and physically possible prior to the application being lodged with Council.

The cost of carrying out the work following approval by Council is a matter between the applicant and contractor only.

Council does not accept any responsibility for any costs involved in carrying out the work.

Only an approved contractor can be used for all utility service connection work. A list of approved contractors is enclosed on pages 5 and 6.
