

# Future Urban Zone (FUZ)

## Issues

The Future Urban Zone (FUZ) covers five areas of rural residential [land](#). These five areas contain clusters of low density residential development situated on the fringes of Whangarei City's residential suburbs, and are addressed in adopted Urban Structure Plans.

The locations of Future Urban Zones are limited to those areas containing existing rural residential development and which allow for the future [reticulated](#) development of areas contiguous to existing [urban areas](#). The Future Urban Zone generally adjoins [Residential Zones](#) or [Open Space and Recreation Zones](#) on the inner (urban) edge and the Large Lot Residential Zone or Rural Production Zone on the outer (rural) edge.

There is a distinct rural residential amenity and character within Future Urban Zone areas which is different to the amenity of [urban areas](#) and of areas of Rural Production Zone. Part of that rural residential amenity and character relates to remnants of [rural production activities](#) such as stock loading yards, bars, sheds, fences and shelterbelts. The Future Urban Zone areas also provide amenity to the adjoining [urban areas](#) by providing a rural residential outlook until future urban expansion occurs.

The Future Urban Zone provides for a density of rural residential development that lies between the densities of the Rural Lifestyle Zones and [Residential Zones](#). It provides capacity for the future urban expansion of the City and accordingly must be managed for this purpose.

It is anticipated that most Future Urban Zone locations will be considered for rezoning to a [Residential Zone](#) once [reticulated](#) services are available. However, two clusters of Future Urban Zone (ToeToe Road and Whau Valley Road – Appendix 1 and 2 – Future Urban Zone for location of these areas) have been identified as not suitable for future urban development because of [natural hazards](#), proximity to Quarrying [Resource Areas](#) and other [land](#) use constraints, and have been zoned Future Urban Zone solely to recognise the existing level of rural residential development.

Some non-[residential activities](#) of a compatible nature, scale and location may be located within the Future Urban Zone including [commercial activities](#) that are [ancillary activities](#) to [residential activities](#).

## Objectives

FUZ-O1 – Rural Residential Areas	Future Urban Zone, other than ToeToe Road and Whau Valley Road, are maintained as rural residential areas prior to being <a href="#">reticulated</a> for urban expansion.
FUZ-O2 – Reticulated Urban Expansion	<a href="#">Subdivision</a> and development within the Future Urban Zone does not compromise its future for <a href="#">reticulated</a> urban expansion.
FUZ-O3 – Hazards, Heritage and Natural Features	<a href="#">Subdivision</a> and development within the Future Urban Zone avoids hazard areas and protects heritage and natural features such as landforms, watercourses and <a href="#">indigenous vegetation</a> .
FUZ-O4 – Infrastructure Services	<a href="#">Infrastructure</a> services for <a href="#">subdivision</a> and development within the Future Urban Zone are appropriately designed and constructed.
FUZ-O5 – Non-Residential Activities	Compatible small scale non- <a href="#">residential activities</a> are provided for within the Future Urban Zone.

Policies	
FUZ-P1 – Rural-Residential Development	To provide for existing clusters of rural-residential development, while recognising these areas, other than ToeToe Road and Whau Valley Road, are suitable for urban expansion.
FUZ-P2 – Character and Amenity	<p>Prior to urban expansion, to maintain rural residential character and amenity in the Future Urban Zone by maintaining:</p> <ol style="list-style-type: none"> <li>1. A sense of spaciousness with visual connections to a range of landscapes (such as Mt Parihaka, Hurupaki, Rawhitiroa and Ngararatunua scoria cones, Parakiore, Pukenui/Western Hills Forest, and Glenbervie Forest).</li> <li>2. <u>Historic heritage</u> features (such as <u>stone walls</u> in Maunu, Three Mile Bush and Vinegar Hill).</li> <li>3. Dominance of the natural <u>environment</u> (such as landscapes, vegetation and <u>water</u> courses) over the built <u>environment</u>.</li> <li>4. Lack of urban amenities (such as footpaths, street lights or kerb and channelling).</li> <li>5. A high level of privacy and low levels of noise and lighting.</li> <li>6. A range of rural residential development with associated <u>residential units</u>, <u>landscaping</u>/gardens and small scale <u>rural production activities</u>.</li> </ol>
FUZ-P3 – Rural Residential Amenity	<p>Prior to urban expansion, maintain rural residential amenity in the Future Urban Zone by ensuring that all new <u>buildings</u> and <u>major structures</u> are:</p> <ol style="list-style-type: none"> <li>1. Of a scale and character appropriate to the Future Urban Zone.</li> <li>2. Sufficiently <u>setback</u> from <u>site boundaries</u> to enable privacy, the retention of open space and <u>access</u> to sunlight.</li> </ol>
FUZ-P4 – Commercial and Industrial Activities	Prior to urban expansion protect rural residential character and amenity in the Future Urban Zone by avoiding <u>commercial activities</u> and <u>industrial activities</u> and providing for limited <u>commercial activities</u> that are <u>ancillary activities</u> to <u>residential activities</u> on the same <u>site</u> .
FUZ-P5 – Future Urban Expansion	To provide for future urban expansion in the Future Urban Zone by locating <u>buildings</u> , <u>major structures</u> , <u>building</u> platforms, <u>allotment boundaries</u> , <u>access</u> and on- <u>site</u> services to allow for future urban expansion including an urban level of servicing.
FUZ-P6 – Locations to Avoid Future Urban Expansion	To avoid future urban expansion in the ToeToe Road and Whau Valley Road Future Urban Zone areas due to hazards, proximity to Quarrying <u>Resource Areas</u> and <u>land</u> use constraints.
FUZ-P7 – Reticulated Services	To provide for urban expansion in Future Urban Zone areas where <u>reticulated</u> services are available by applying the objectives, policies and rules for the General Residential Zone to urban <u>subdivision</u> and subsequent <u>land</u> use.

# Future Urban Zone (FUZ)

FUZ-P8 – Access and Linkages	To provide for future urban expansion by providing within each <u>subdivision</u> an area of protected <u>land</u> that allows <u>access</u> and linkages to existing and future services including <u>roads</u> , <u>wastewater</u> , <u>stormwater</u> , <u>water</u> , pedestrian <u>access</u> and open space.
FUZ-P9 – Safety, Efficiency and Parking	To avoid adverse <u>effects</u> from <u>commercial activities</u> that are <u>ancillary activities</u> to <u>residential activities</u> on pedestrian safety, <u>road</u> safety and efficiency, and parking.
FUZ-P10 – Reverse Sensitivity	To manage <u>reverse sensitivity effects</u> by avoiding the establishment of <u>sensitive activities</u> within close proximity to Quarrying <u>Resource Areas</u> , Rural Production Zone, <u>Strategic Rural Industries</u> Zone, <u>Business Zones</u> and <u>plantation forestry</u> .
FUZ-P11 – Environmental Features	To ensure <u>subdivision</u> protects and enhances environmental features by: <ol style="list-style-type: none"> <li>1. Designing <u>subdivisions</u> to respond to the topography and characteristics of the <u>land</u> being developed.</li> <li>2. Locating accessways, services, utilities and <u>buildings</u> platforms where these can be provided without the need for significant <u>earthworks</u>, retaining, benching or <u>site</u> contouring.</li> </ol>
FUZ-P12 – Road Network	To ensure <u>subdivision</u> results in an efficient and safe <u>road</u> network by: <ol style="list-style-type: none"> <li>1. Limiting the number of <u>allotments</u> served by shared accessways and the number of shared accessways per <u>subdivision</u>.</li> <li>2. Requiring Indicative <u>Roads</u> and cycleways to be formed.</li> </ol>

## Rules
