

Settlement Zone (SETZ)

Issues

The Settlement Zone (SETZ) manages [land](#) use and [subdivision](#) within established rural settlements throughout the Whangarei District. The Settlement Zone is made up of three different Sub-Zones: Sub-Zone 1 – Settlement Zone Residential, Sub-Zone 2 – Settlement Zone Centre and Sub-Zone 3 – Settlement Zone Industry. Suitable locations for [residential activities](#), [commercial activities](#) and [industrial activities](#) are identified within rural settlements through these Sub-Zones. The objectives and policies are applied across all rural settlements. Any additional matters for consideration in the Coastal Area relevant to the appropriate rural settlements are addressed in the Coastal Area overlay.

The Whangarei District Council Growth Strategy – Sustainable Futures 30/50 2009 ('Whangarei District Growth Strategy') identifies three rural settlements (Hikurangi, Waipu and Parua Bay) as growth areas. It is expected that other rural settlements will continue to function at a similar scale and nature to how they are today.

The character and amenity of each rural settlement differs in terms of their location, the range of activities supported and the service function that fulfils. Many of the rural settlements are characterised by traditional quarter acre sections and low density of built development; however, smaller [allotment](#) sizes are provided for in the zone provisions to consolidate growth for efficient [land](#) use and service provision. Development may be more intensive in the settlements where connections to Council [reticulated](#) services are available.

Many of the settlements are situated adjacent to the Rural Production Zone which provides a rural context for the settlements. The [boundary](#) interface has the potential for [reverse sensitivity effects](#) which need to be managed.

The 13 larger rural settlements are each described below. It is expected that the individual characteristics of each rural settlement will be recognised in the preparation and assessment of any resource consent application. There are also 16 smaller rural settlements.

Hikurangi

Hikurangi, located between State Highway 1 and the main trunk railway line, is a service settlement with a population of approximately 1,500 people. There is grocery shop and other small scale [retail activities](#), a veterinary practice and a museum. The town has a rich history based on mining. From the 1890s coal was mined in the area with the last coal mine closing in 1971. There are also significant limestone resources, with a quarry that supplies limestone to the Golden Bay Cement plant south of Whangarei.

A significant geographical feature is Mount Hikurangi, a volcanic dome that rises 365 metres to the west of the town. In pre-European times the swamp basin was an important resource for Māori and was a highly productive area for food and fisheries. Hikurangi is identified as a growth node in the Whangarei District Growth Strategy.

Parua Bay

Parua Bay is a coastal rural settlement located on the north side of the Whangarei Harbour; with Manganese Point and Reserve Point wrapping around the entry to the Bay. Existing services in Parua Bay settlement include a primary school, community centre, sports facilities, petrol station, medical centre, a superette, cafe and small scale retail.

The Whangarei District Growth Strategy identifies the potential to develop Parua Bay as a growth node to service the wider Whangarei Heads area. Ad-hoc development in the past has resulted in fragmented patterns of development in Parua Bay settlement. Moving forward growth must be carefully managed within the settlement to provide for the wellbeing of the population over the medium term

Settlement Zone (SETZ)

while not compromising the development potential and sustainability of the settlement over the long term.

Waipū

Waipū is one of the oldest European settlements in Whangārei District, with its Scottish heritage making a large contribution to the settlement's identity. The settlement is rural in nature being located within an area consisting of farmed flats, rolling to steep pasture and pockets of vegetation. Multiple small [river](#) catchments converge near the settlement before flowing into the Waipū River estuary and into Bream Bay, creating high potential for productive uses. Waipū has a strong settlement centre with a wide range of services, facilities and [commercial activities](#) and [industrial activities](#). Waipū has seen reasonable population growth and is identified as a growth node in the Whangarei District Growth Strategy.

Maungakaramea

Maungakaramea has a distinct historic/rural identity related to the longevity of the settlement (150 years) and its rural location. Maungakaramea volcanic cone and the Tangihua Range provide a dramatic scenic backdrop to the settlement. There are some attractive historic [buildings](#) including a former hotel, a number of churches and many historic [stone walls](#). Local facilities include a primary school, play centre, church, community hall, sports fields, bowling green, [retirement village](#), a voluntary rural fire force and a [garage](#)/general store. The area has experienced rural residential growth; however, the settlement itself has a relatively stable resident population.

Maungatapere

Maungatapere is surrounded by highly productive farmland with [versatile soils](#) suitable for a wide range of [farming](#) and horticulture activities. The settlement features many historic [stone walls](#) and the volcanic cones of Maungatapere, Maunu and Whatitiri provide a dramatic backdrop to the settlement.

Maungatapere has experienced moderate growth in recent years and there is a significant amount of rural residential development in the area. The settlement is characterised by a variety of facilities including a school, community hall, church, retirement home, and museum; as well as industry support services.

Matapōuri

Matapōuri Bay, Woolleys Bay and Sandy Bay are recognised as some of the best beaches in New Zealand and are popular holiday destinations. There has been reasonable growth in the area over the last 15 years; however, many of the homes in Matapōuri are holiday homes rather than permanent residences. Matapōuri has a small general store and a community hall.

McLeod Bay/Reotahi

McLeod Bay and Reotahi are situated on the inner Whangarei Harbour. Part of the Whangarei Harbour Marine Reserve is located around Motukaroro/Passage Island at Reotahi. McLeod Bay/Reotahi settlement has a higher permanent population than other coastal settlements and there has been a moderate level of growth over recent years. There are some community facilities and a local eatery/dairy; however, the intention is that Parua Bay settlement will continue to accommodate the majority of [commercial services](#) in this area. Reotahi has an historic connection with the [farming](#) industry with a meat processing plant built immediately adjoining the coast. Remains of the processing plant are accessible by a walking track along the coast.

Ngunguru

Ngunguru is a well-established coastal settlement that has an urban character with small [allotment](#) sizes and shops, a school, a motel and community facilities. The settlement adjoins the Ngunguru

Settlement Zone (SETZ)

estuary. Ngunguru Sandspit Pi Manu is a significant environmental feature that separates the harbour from Whangaumu Bay to the east. Ngunguru Sandspit has well recognised cultural, historical and ecological values. It is an important landscape feature for the Ngunguru community.

Oakura

Oakura is an established coastal settlement that has experienced minimal growth in recent years, most of which can be attributed to holiday homes. Predominantly residential development is located on the flat adjacent to the coast with further development constrained by the steeper topography to the west and Ohawini Bay to the north, which has limited vehicle [access](#). Oakura is serviced by a small [mixed use](#) area of [commercial activities](#), [retail activities](#) and accommodation activities.

Pātaua

Pātaua is made up of two distinct parts located on either side of the entrance to the Pātaua estuary. Pātaua South is located on the estuary plain on the southern side with Pātaua North on coastal dune lands on the north side. The two parts of the settlement are connected by a footbridge but there is no vehicular [access](#) between them. At Pātaua South there is a camp ground, holiday homes, permanent residents and a small range of service facilities and activities to support the permanent and holiday populations. Pātaua North contains mainly holiday homes but is becoming more popular as a commuter settlement due to improvements to the [road](#) to Whangarei.

Taurikura/Urquharts Bay

Taurikura/Urquharts Bay settlement is located towards the Whangarei Heads. Taurikura is a popular beach and is supported by a range of community facilities including a tennis court, community hall and a general store. Taurikura/Urquharts Bay settlement has a very small permanent population which has seen minimal population growth over recent years.

Tutukaka

Tutukaka is characterised by the existing marina and [water](#) based recreation activities and is the gateway to the world famous Poor Knights Marine Reserve. Facilities include the Oceans Resort development comprising retail services, restaurant and hotel facilities, as well as other restaurants/bars located around the harbour. The [land](#) around the harbour is steep and clad in coastal forest providing a backdrop to the [coastal marine area](#). In many areas the [land](#) is identified as being at risk of [land](#) instability or erosion prone. Residential development is accommodated in a series of small bays on the southern side of the harbour and the open coast around to Whangaumu Bay.

Waipu Cove/Langs Beach

Waipu Cove/Langs Beach settlement is the southernmost settlement in the District and therefore is in the closest proximity to Auckland. There is some tourist accommodation, a campground, cafes and a dairy, but other services are limited. The settlement is characterised by white sandy beaches, dramatic coastal headlands and pohutukawa clad coastlines. There is a high proportion of holiday homes and the area is popular with holiday-makers over the summer holiday period.

Small Settlements

Smaller rural settlements consisting of a cluster of residential development with limited community services such as primary schools and community halls, are located at Portland, Mangapai, Waitotira, Ruatangata West, Titoki, Pakotai, Te Horo, Riverview Place, Tamaterau/Waikaraka, Manganese Point, Ocean Beach, Bland Bay, Whananaki, Taiharuru, Helena Bay and Moureeses Bay. These rural settlements exist having historically provided important services to rural communities or as isolated coastal holiday destinations. They are zoned for residential [land](#) use only Sub-Zone 1 – Settlement Zone Residential.

Settlement Zone (SETZ)

Objectives	
SETZ-O1 – Managed Growth	Provide for the managed growth of rural settlements.
SETZ-O2 – Amenity and Character	Protect and enhance the amenity and character values of each rural settlement.
SETZ-O3 – Community Facilities	Provide for community facilities; including halls, sports fields, churches and schools acknowledging the role of these as focal points for rural settlements.
SETZ-O4 – Residential Activities	Provide for the consolidation of residential activities in rural settlements.
SETZ-O5 – Mix of Residential and Commercial	Enable a mix of residential activities and commercial activities to occur in rural settlement centres.
SETZ-O6 – Business Activities	Enable a range of business activities that fulfil local service functions in rural settlements.

Policies	
SETZ-P1 – Range of Activities	To enable a range of land use activities necessary to support the service, residential and community functions of settlements.
SETZ-P2 – Development Intensity	To enable a greater intensity of development where reticulated services are available.
SETZ-P3 – Characteristics and Features	<p>To protect features and characteristics that contribute to sense of place in rural settlements and maintain factors that contribute to rural settlements character including:</p> <ol style="list-style-type: none"> 1. Low to moderate levels of noise and lighting, particularly at night. 2. Ample access to daylight. 3. Established streetscapes reflecting historical development patterns. 4. Semi-formal arrangement and design of roadways and structures. 5. Access to public open space and community facilities. 6. Opportunity for informal social interaction. 7. A range of low density building typology and design. 8. A central settlement focal point containing business and community facilities.
SETZ-P4 – Road Network	To protect the character and amenity of rural settlements and to avoid adverse effects to the road network by limiting the number of traffic movements generated by non- residential activities .

Settlement Zone (SETZ)

SETZ-P5 – Character and Amenity	<p>To protect and enhance the established character and amenity of rural settlements by ensuring that subdivision and development are designed, constructed and operated so that they are consistent with:</p> <ol style="list-style-type: none"> 1. The Settlement Zone Issues. 2. The service function of the settlement.
SETZ-P6 – Subdivision and Associated Land Use	<p>To locate and design subdivision and associated land development in the Settlement Zone to complement the existing form of the rural settlement and maintain or enhance rural settlement character and amenity values by:</p> <ol style="list-style-type: none"> 1. Locating accessways, services, utilities and building areas where: <ol style="list-style-type: none"> a. These can be provided without the need for significant earthworks, retaining, benching or site contouring. b. The location is sensitive to, and responds to, environmental features of the site so that vegetation removal or adverse effects on water quality, wetlands, riparian margins, historic heritage sites or Sites of Significance to Māori are avoided. 2. Ensuring that the scale of the subdivision and the resulting land use activity will not adversely impact on the character of the settlement by significantly altering the mix of land use activities that characterise the settlement. 3. Identifying building areas that respond to site topography and the settlement character. 4. Designing subdivisions to respond to the topography and characteristics of the land being developed. 5. Ensuring proposed allotments meet minimum allotment size requirements.

Note:

1. *The Settlement Zone (SETZ) contains objectives and overarching policies and rules. More specific policies and rules that are applicable to each Sub-Zone are contained within that Sub-Zone.*

Rules

SETZ-R1	Any Activity Not Otherwise Listed in This Chapter
SETZ	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> 1. Resource consent is not required under any rule of the District Plan. 2. The activity is not prohibited under any rule of the District Plan.

Settlement Zone (SETZ)

SETZ-R2	Minor Building
SETZ	<p>Activity Status: Permitted</p> <p>Note:</p> <p>1. <u>Minor buildings</u> are exempt from rules SETZ-R6 – R8, SETZ-R26 – R28 and SETZ-R45 – R47 .</p>
SETZ-R3	Farm Quarrying
SETZ	<p>Activity Status: Discretionary</p> <p>Where:</p> <p>1. The activity is a primary activity or <u>ancillary activity</u>.</p>
SETZ-R4	Hospitals
SETZ	<p>Activity Status: Non-Complying</p> <p>Where:</p> <p>1. The activity is a primary activity or <u>ancillary activity</u>.</p>
SETZ-R5	Intensive Livestock Farming
SETZ	<p>Activity Status: Prohibited</p> <p>Where:</p> <p>1. The activity is a primary activity or <u>ancillary activity</u>.</p>

Settlement Zone (SETZ)

Sub-Zone 1 - Settlement Zone Residential

Issues

The areas identified as Settlement Zone Residential Sub-Zone provide for [residential activities](#) within the rural settlements. The rural settlements are developed to varying densities according to a number of factors including topography, known natural hazard zones and depending on whether they are serviced by Council's [wastewater](#) system. This pattern is expected to continue with larger [sites](#) being required if on [site](#) disposal of [wastewater](#) is proposed. New suitable areas for residential development have been zoned where compatible existing residential development has occurred or where a shortage of residential [land](#) supply has been identified.

Note:

1. *There are no objectives within this Sub-Zone. The objectives and policies within the overarching Settlement Zone (SETZ) are applicable to the Settlement Zone Residential Sub-Zone.*

Policies

<p>SETZ-P7 – Character and Amenity</p>	<p>To protect residential character and amenity in the Settlement Zone Residential Sub-Zone by restricting the operation of commercial activities and industrial activities and providing for limits to commercial activities that are ancillary activities to residential activities on the same site.</p>
<p>SETZ-P8 – Reverse Sensitivity</p>	<p>To avoid reverse sensitivity effects and to ensure that amenity is maintained in the Settlement Zone Residential Sub-Zone by ensuring that all new buildings and major structures are:</p> <ol style="list-style-type: none"> 1. Of a scale and character appropriate to Settlement Zone Residential Sub-Zone. 2. Sited in a location sufficiently set back from site boundaries to enable privacy, the retention of open space and access to sunlight and separation from Rural Production Zone boundaries. 3. Designed to enable incidental activities such as minor buildings, parking (where provided), manoeuvring, landscaping and private open space to be accommodated on the site.
<p>SETZ-P9 – Impervious Areas</p>	<p>To provide for private open space and landscaping in the Settlement Zone Residential Sub-Zone by ensuring that new built development is comprehensively designed so that at least 35% of the net site area is free of impervious areas.</p>

Rules

<p>SETZ-R6</p>	<p>Building and Major Structure Height</p>	
<p>Residential Sub-Zone</p>	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> 1. The maximum building height and major structure height is 8m above ground level. 	<p>Activity Status when compliance not achieved: Discretionary</p>

Settlement Zone (SETZ)

SETZ-R7	Building and Major Structure Setbacks	
Residential Sub-Zone	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> 1. All buildings and major structures are set back at least: <ol style="list-style-type: none"> a. 4.5m from road boundaries. b. 3m from all non-road boundaries, with one setback of 1.5m. c. 27m from Mean High Water Springs and the top of the bank of any river that has a width exceeding 3m (excluding bridges, culverts and fences). 	<p>Activity Status when compliance not achieved: Discretionary</p>
SETZ-R8	Building and Major Structure Height in Relation to Boundary	
Residential Sub-Zone	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> 1. All buildings and major structures do not exceed a height equal to 3m above ground level plus the shortest horizontal distance between that part of the building or major structure and any site boundary. 	<p>Activity Status when compliance not achieved: Discretionary</p>
SETZ-R9	Impervious Areas	
Residential Sub-Zone	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> 1. The impervious area within the site does not exceed 65% of the site area. 	<p>Activity Status when compliance not achieved: Discretionary</p>
SETZ-R10	Fences	
Residential Sub-Zone	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> 1. The fence has a maximum height of 2m above ground level. 	<p>Activity Status when compliance not achieved: Discretionary</p>

Settlement Zone (SETZ)

SETZ-R11	Outdoor Areas of Storage or Stockpiles	
Residential Sub-Zone	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> 1. The outdoor areas of <u>storage</u> or stockpiles that are open areas of <u>storage</u> or stockpiles of materials which are screened from view from <u>public places</u> and surrounding <u>sites</u>, except where such materials or equipment: <ol style="list-style-type: none"> a. Are accessory to agricultural, horticultural or <u>forestry activities</u>; or b. Include functioning machinery, stockpiles of mineral resources or construction materials. 	<p>Activity Status when compliance not achieved: Discretionary</p>
SETZ-R12	Principal Residential Unit	
Residential Sub-Zone	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> 1. The maximum density is 1 <u>principle residential unit</u> per 500m² <u>net site area</u> where the <u>principle residential unit</u> will be connected to Council's <u>reticulated wastewater</u> system. 2. The maximum density is 1 <u>principle residential unit</u> per 2,000m² <u>net site area</u> where the <u>principle residential unit</u> will not be connected to Council's <u>reticulated wastewater</u> system. 3. The <u>principle residential unit</u> is set back at least 4.5m from a railway line designation <u>boundary</u>. 	<p>Activity Status when compliance not achieved: Discretionary</p>

Settlement Zone (SETZ)

SETZ-R13	Minor Residential Unit	
Residential Sub-Zone	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> The maximum density is 1 <u>minor residential unit</u> per <u>site</u>. The <u>net site area</u> of the <u>allotment</u> is at least 750m². The <u>minor residential unit</u> will be connected to a public <u>reticulated wastewater</u> system. The nearest distance between the <u>minor residential unit</u> and the <u>principle residential unit</u> does not exceed 15m. The maximum <u>gross floor area</u> of the <u>minor residential unit</u> (including decking and <u>garage</u> areas) is 90m². 	<p>Activity Status when compliance not achieved: Discretionary</p>
SETZ-R14	Commercial Activities	
Residential Sub-Zone	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> The activity generates less than 20 <u>traffic movements</u> per <u>site</u>, per <u>day</u>. There is no car parking between the <u>residential unit</u> and the <u>road</u>. In addition to the principal operator, the activity has no more than two other persons engaged in providing the activity. The activity does not exceed the use of 15% of the total <u>gross floor area</u> of all <u>buildings</u> on <u>site</u>. The total area of signage is less than 0.25m², per <u>site</u>. There is no <u>illuminated signage</u> or moving signage. The activity is an <u>ancillary activity</u> to the residential use of the <u>site</u>. The principal operator of the activity is a permanent resident on the <u>site</u>. The activity does not include, before 08:00 or after 18:00 on any <u>day</u>, the operation of machinery, receiving customers or the loading or unloading of vehicles. 	<p>Activity Status when compliance not achieved with SETZ-R14.1 – 6: Discretionary.</p> <p>Activity Status when compliance with three or more of rules SETZ-R14.1 – 6 is not achieved: Non-Complying</p> <p>Activity Status when compliance not achieved with SETZ-R14.7 – 9: Non-Complying</p>

Settlement Zone (SETZ)

SETZ-R15	Place of Assembly	
SETZ-R16	Recreational Facilities	
SETZ-R17	General Community	
SETZ-R18	Educational Facilities	
Residential Sub-Zone	Activity Status: Permitted Where: <ol style="list-style-type: none"> The activity is a primary activity or <u>ancillary activity</u>. The activity occupies less than 35% of the <u>net site area</u>. The activity operates between the hours of 08:00 – 22:00. 	Activity Status when compliance not achieved: Discretionary

Residential Sub-Zone	Activity Status: Prohibited Where: <ol style="list-style-type: none"> The activity is a primary activity or <u>ancillary activity</u>. 	

Settlement Zone (SETZ)

Sub-Zone 2 – Settlement Zone Centre

Issues

The Settlement Zone Centre Sub-Zone provides for the commercial and community centres found in the larger rural settlements and is often the focal point for local communities and community facilities. Opportunities are provided for the development of a mix of residential and commercial development within these areas while ensuring the character of the rural settlement is retained. It is expected that commercial development will be consolidated within the Settlement Zone Centre Sub-Zone with residential development clustered around it to retain a compact rural settlement centre.

Note:

1. *There are no objectives within this Sub-Zone. The objectives and policies within the overarching Settlement Zone (SETZ) are applicable to the Settlement Zone Centre Sub-Zone.*

Policies

SETZ-P10 – Amenity	<p>To maintain amenity in the Settlement Zone Centre Sub-Zone by ensuring that all new buildings and major structures are:</p> <ol style="list-style-type: none"> 1. Of a scale and character appropriate to Settlement Zone Centre Sub-Zone. 2. Sufficiently set back from the road boundary to allow safe pedestrian and vehicle movement and access. 3. Designed to enable incidental activities such as minor buildings, parking (where provided), manoeuvring and landscaping to be accommodated on the site.
SETZ-P11 – Outdoor Living Space	<p>To ensure that residential units in the Settlement Zone Centre Sub-Zone have sufficient outdoor living space.</p>
SETZ-P12 – Managed Activities	<p>To manage the scale and nature of activities within the Settlement Zone Centre Sub-Zone by ensuring activities:</p> <ol style="list-style-type: none"> 1. Avoid significant adverse effects on surrounding residential areas. 2. Do not compromise the retention, and potential establishment, of a mix of activities within the Settlement Zone Centre Sub-Zone. 3. Maintain the vibrancy and vitality of the surrounding Settlement Zone Centre Sub-Zone. 4. Can meet and fund local infrastructure requirements.

Settlement Zone (SETZ)

Rules

SETZ-R26	Building and Major Structure Height	
Centre Sub-Zone	Activity Status: Permitted Where: 1. The maximum <u>building height</u> and <u>major structure height</u> is 8m above <u>ground level</u> .	Activity Status when compliance not achieved: Discretionary

Centre Sub-Zone	<p>Activity Status: Non-Complying</p> <p>Where:</p> <ol style="list-style-type: none"> The activity is a primary activity or ancillary activity.

Settlement Zone (SETZ)

Sub-Zone 3 – Settlement Zone Industry

Issues

The areas identified as Settlement Zone Industry Sub-Zone are existing industrial areas located within the larger rural settlements. They contribute to the self-sufficiency of rural settlements and benefit the wider community through provision of employment and support to local social and recreational activities. [Industrial activities](#) also provide supporting services for [rural production activities](#). The Settlement Zone Industry Sub-Zone is located in close proximity to the Settlement Zone Residential Sub-Zone and Settlement Zone Centre Sub-Zone. There is potential for [reverse sensitivity effects](#) such as noise, odour, lighting glare, vibration and [heavy vehicle](#) movements. Consequently, new residential development will be restricted to limit such [effects](#). This Sub-Zone only recognises existing [land](#) use activities and does not seek to provide additional zoning.

Note:

1. *There are no objectives within this Sub-Zone. The objectives and policies within the overarching Settlement Zone (SETZ) are applicable to Settlement Zone Industry Sub-Zone.*

Policies

SETZ-P13 – Character	<p>To maintain rural settlement character in the Settlement Zone Industry Sub-Zone by ensuring that all new buildings and major structures are:</p> <ol style="list-style-type: none"> 1. Of a scale and character appropriate to the Settlement Zone Industry Sub-Zone and compatible with the surrounding settlement. 2. Sited in a location sufficiently set back from site boundaries to enable privacy, the retention of open space and access to sunlight. 3. Designed to enable incidental activities such as minor buildings, parking (where provided), manoeuvring and landscaping to be accommodated on the site.
SETZ-P14 – Sensitive Activities	<p>Avoid sensitive activities in the Settlement Zone Industry Sub-Zone unless they:</p> <ol style="list-style-type: none"> 1. Support and are ancillary activities to the operation of industrial activities within the Sub-Zone; and 2. Do not adversely affect existing industrial activities; and 3. Ensure that sufficient land is retained for potential future industrial activities.

Rules

SETZ-R45	Building and Major Structure Height	
Industry Sub-Zone	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> 1. The maximum building height and major structure height is 20m above ground level. 	<p>Activity Status when compliance not achieved: Discretionary</p>

Settlement Zone (SETZ)

SETZ-R46		Building and Major Structure Setbacks
Industry Sub-Zone	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> 1. All buildings and major structures are set back at least: <ol style="list-style-type: none"> a. 4.5m from road boundaries. b. 27m from Mean High Water Springs and the top of the bank of any river that has a width exceeding 3m (excluding bridges, culverts and fences). 	<p>Activity Status when compliance not achieved: Discretionary</p>
SETZ-R47		Building and Major Structure Height in Relation to Boundary
Industry Sub-Zone	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> 1. All buildings and major structures do not exceed a height equal to 3m above ground level plus the shortest horizontal distance between that part of the building or major structure and any non-Settlement Zone Industry Sub-Zone boundary. 	<p>Activity Status when compliance not achieved: Discretionary</p>
SETZ-R48		Any Activity
Industry Sub-Zone	<p>Activity Status: Permitted</p> <p>Where:</p> <ol style="list-style-type: none"> 1. The activity generates less than 200 traffic movements per site, per day. 2. The activity operates within the hours 06:00 – 22:00, excluding any temporary military training activity. 	<p>Activity Status when compliance not achieved: Discretionary</p>
SETZ-R49		Sensitive Activity
Industry Sub-Zone	<p>Activity Status: Non-Complying</p> <p>Where:</p> <ol style="list-style-type: none"> 1. The sensitive activity is a primary activity or ancillary activity.
