Designation hierarchy under section 177 of the Resource Management Act 1991	Primary
Conditions	<ol style="list-style-type: none"> 1. That no structures/buildings erected within the designation area shall exceed a maximum height of 8.0 metres or maximum total building coverage of 35%, with all structures/buildings maintaining a 3.0 metre building setback from boundaries (provided one of these internal setbacks may be reduced to 1.5 meters). No structures/buildings are to penetrate the daylight angles defined in Appendix 11 of the operative Whangarei District Plan. 2. That all activity shall be conducted within the building, with no outdoor storage or stockpiles of materials or equipment, provided that short term activity and storage outside the building is permitted in emergency situations. 3. All activities within the designation area shall be conducted so as to ensure the following noise limits are not exceeded outside of the designation: <ol style="list-style-type: none"> a) 45dB LA eq between 0700 and 2200; and 35dB LA eq at any other time; and b) 60 dB LAF max on any day between 2200 and 0700, except for emergency service vehicles and the operation of emergency service call-out sirens; and c) Sound levels shall be measured in accordance with NZS 6801: 2008 “Acoustics – Measurement of Environmental Sound” and assessed in accordance with NZS 6802: 2008 “Acoustics – Environmental Noise”. 4. That the designation area shall not be illuminated at night except during emergency works and other maintenance work requiring out of hours activity. The illuminance of the site lighting installations shall not exceed the following standards: <ol style="list-style-type: none"> a) The light spill onto any other site measured at the designation boundary does not exceed 10 lux at any receiving property boundary or 15 lux at any road reserve boundary; and b) The artificial light is shielded in such a manner that light emitted by the fixture is projected below a

- horizontal plane running through the lowest point of the fixture; and
- c) The lower edge of the shield, as required by 4 (b) above, is to be at or below the centreline of the light source; and
 - d) The artificial lighting complies with AS/NZS 1158:1996; or
 - e) The lighting is required under health and safety regulations.
5. No new structures and/or equipment shall be erected on the site without the submission of an outline plan of works pursuant to section 176A of the Resource Management Act, other than the following:
- a) Structures and/or equipment which are to replace the existing structures and/or equipment on the site at the time of consideration or application of an outline plan of works, or
 - b) Any temporary structures erected for the purposes of allowing maintenance or repair of existing structures and/or equipment for up to a period of one month unless written confirmation is obtained from the Resource Consents Manager for an alternative timeframe and will be removed once any maintenance or repair has ceased, or
 - c) Technology, structures and/or equipment permitted by the underlying District Plan Environment rules as they exist at the time of installation.
6. That a detailed landscape plan be prepared by a suitably qualified landscape architect, including an implementation and maintenance programme. The landscape plan shall be submitted with the Outline Plan under Section 176A to, and approved by, the Whangarei District Council Resource Consents Manager prior to any works commencing on site.

The plan shall address all boundaries of the designation area (with the exception of access) and include details of the plant sizes at the time of planting and intended species. Such a plan shall include appropriate measures to reduce adverse effects on visual amenity and to provide screening of the substation building viewed from neighbouring properties. Planting adjacent to the stonewalls shall not undermine these structures.

The landscaping shall be completed within the first planting season after the construction of the substation and shall be maintained (including the replacement of any failed plantings) in accordance with the approved landscape plan for the duration of the designation for electricity purposes (substation).

Northpower Limited

		<p>Prior to submission to Council, the requiring authority will consult with adjacent property owners on the landscape plan.</p> <p>That at the time the substation is developed, the overhead lines owned by Northpower Ltd east of the designated site to Pompallier Estate Drive, will be undergrounded.”</p>
