

# Waterfront Zone (WZ)

## Issues

The Waterfront Zone (WZ) manages [land](#) use and [subdivision](#) within Whangārei's Waterfront. Whangārei's Waterfront is located on the edge of the (estuarine) Hatea [River](#) and Waiarohia [Stream](#) and is close to Whangārei's City Centre, being a significant destination for local and international [visitors](#). The area has seen steady development since the 1990s. Today, the main uses of the area are active and passive recreation with a selection of tourism focused retail, accommodation, restaurant and [entertainment facilities](#). These activities are complimented by a diverse range of maritime activities, defining history and a rich cultural heritage. This is reflected by replica Victorian [buildings](#), a heritage walkway, and an iconic wave and waka sculpture. Estuarine open spaces which [access](#) the waterfront and soft landscapes framed by a pedestrian and cycle loop through the Waterfront also contribute to the area's unique character and coherent [sense of place](#).

The Waterfront Zone provides important amenity for Whangārei City, being a hub for recreation, culture and tourism. A key aspect of the Waterfront [Zone](#) is ensuring that development is physically and visually connected to the waterfront, the City Centre and [Open Space and Recreation Zones](#). The [built form](#) in the Waterfront Zone should be sufficient to provide for economic growth and development while also protecting view shafts of Parihaka and the waterfront, retaining a sense of openness, and managing adverse [effects](#) on the adjacent [Open Space and Recreation Zones](#) and General [Residential Zones](#).

The Waterfront Zone is comprised of two distinct areas: The Waterfront Commercial Area and the Waterfront Mixed Use Area (see Appendix 1). The Waterfront Commercial Area connects the Waterfront Zone to the City Centre Zone and provides for a range of activities including small scale retail, restaurants, passive recreation and cultural activities along with artisan craft industries. The Waterfront Mixed Use Area extends along Hīhītau Peninsula, Riverside Drive and Port [Road](#), providing for residential activities, commercial activities and [community activities](#), along with maritime industrial activities that are compatible with [sensitive activities](#).
