

I believe that Council should be planning for a specific optimum size for Whangarei.

A size that would allow us to keep our slogan: We Love It Here.

I believe that if we continue in the direction we are going that will not be possible.

I believe we will have much to suffer if we continue. To name few:

- Long traffic cues
- Congestion charges
- Parking nightmares
- Water restrictions
- Hospital & schools overcrowding

Endless doubly expensive remedial work going on for ever in futile attempts to overcome the problems being created.

- We almost always seem to have the ambulance at the bottom of the cliff.  
Why is that?
- It will be a great shame if Council doesn't place its highest value and principal aim on achieving the majority of its citizens proudly declaring,  
"We Love It Here."

Graham Crigwell

○ What I have to say may be a little unconventional. Just a little bit.

Just a little bit.

○ I believe it needs to be said.

○ However I do believe that the majority of our citizens would agree with me.

~~Is council working for the majority or for the minority?~~
